

How To Update Internet Explorer

You can download Internet Explorer directly from [Microsoft](#), but if you set IE to automatically update, you won't need to worry about this again:

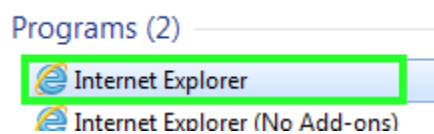

1. Click on the Start icon.

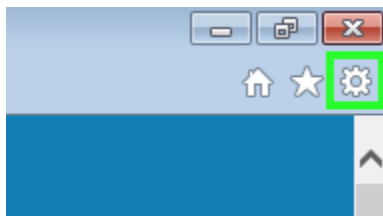

2. Type in "Internet Explorer."

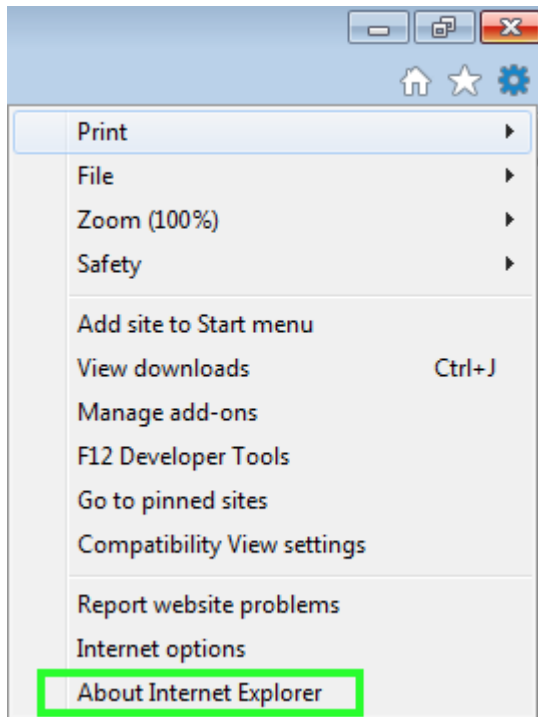

3. Select Internet Explorer.

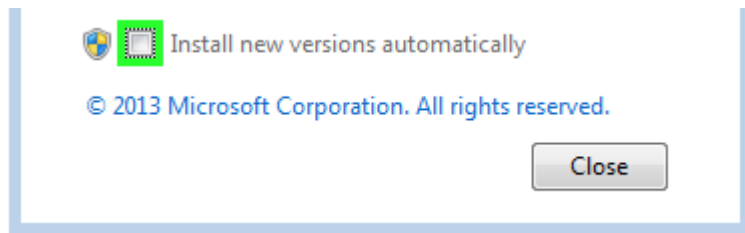

4. Click on the gear icon in the upper right corner.

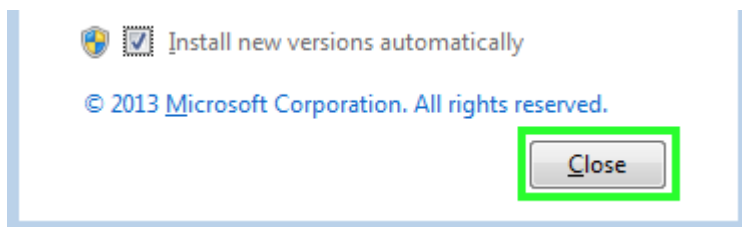

5. Select About Internet Explorer.

6. Check the box next to Install new versions automatically.

7. Click Close.

Now Internet Explorer will automatically stay up to date, keeping Windows' internet services patched.

About Internet Explorer

Version: 11.0.9600.18015

Update Versions: 11.0.23 ([KB3087038](#))

Product ID: 00150-20000-00003-AA459

 Install new versions automatically
